WHATELY WILDLIFE MANAGEMENT AREA - WHATELY

SIZE: This 243 acre parcel is composed primarily of steep, hilly terrain with some moderately sloping to nearly level areas of plateau and hilltop. The property is situated between Grass Hill , Williamsburg and Webber Roads. Access is best off Grass Hill Road, a discontinued dirt road which is still passable with a good 4WD vehicle.

VEGETATION: The area is dominated by mixed hardwood forest composed primarily of oak and maple. There are also several open hilltop pastures with southeast exposures.

WATER: The only water on the property is several acres of wooded swamp and the headwaters of of Ground Brook and Grass Hill Brook.

WILDLIFE: Deer, bear, bobcat, grouse, squirrel, raccoon, turkey, coyote, rabbit and numerous nongame species including harrier hawks. This area is not stocked with pheasant.

SPECIAL REGULATIONS: None.
